

Morphing into the Future with Automated HCM

ZingHR enabled JK Fenner to transform HR Processes and enhance efficiency.

J.K. Fenner (India) Limited is a member of the JK Organization which ranks among the top Industrial houses in India. Fenner commenced operations in India in 1929 and put up their first manufacturing unit at Madurai in Tamil Nadu in the year 1956. Currently there are 7 manufacturing units over 5 locations.

The Challenge

The client was plagued with several complex and manually intensive processes that significantly complicated the task of HRs. Moreover, they had a decentralized payroll processing and HR team which made it difficult to follow seamless processes across all locations.

The Ask

- A fully automated HR system to ensure necessary control with Corporate HR
- To simplify Attendance, Claims, and Payroll management processes

The ZingHR Solution

Our first step was to help JK Fenner move from a manual process to an automated workflow driven one. We implemented our cloud powered HCM system across all of their locations to transform the way they capture attendance, maintain employee database, process payrolls, and manage investment declaration.

Furthermore, training sessions were organized for HR and payroll teams across all locations to maximize the benefits of ZingHR's Cloud HCM.

Time,
Attendance and
Leave

Payroll
Processing

Travel & Expense

Results Delivered

- **Simplified Attendance Management:**
Enabled the HRs to map and manage all the attendance data with ease from a single dashboard.
- **Increased Productivity:** Provided real-time access to relevant information which increased productivity.
- **Enhanced Efficiency:**
Reduced payroll processing time to 5 minutes.

About Us

Driven by the need to identify complex Human Resource challenges and provide simple HR Solutions, ZingHR combines technology and effortless on-the-Cloud solutions in almost every area in the lifecycle of Human Capital Management. It covers the entire spectrum from Hire-to-Retire Employee Lifecycle Processes.
